IcyNoteCore Design

Overview

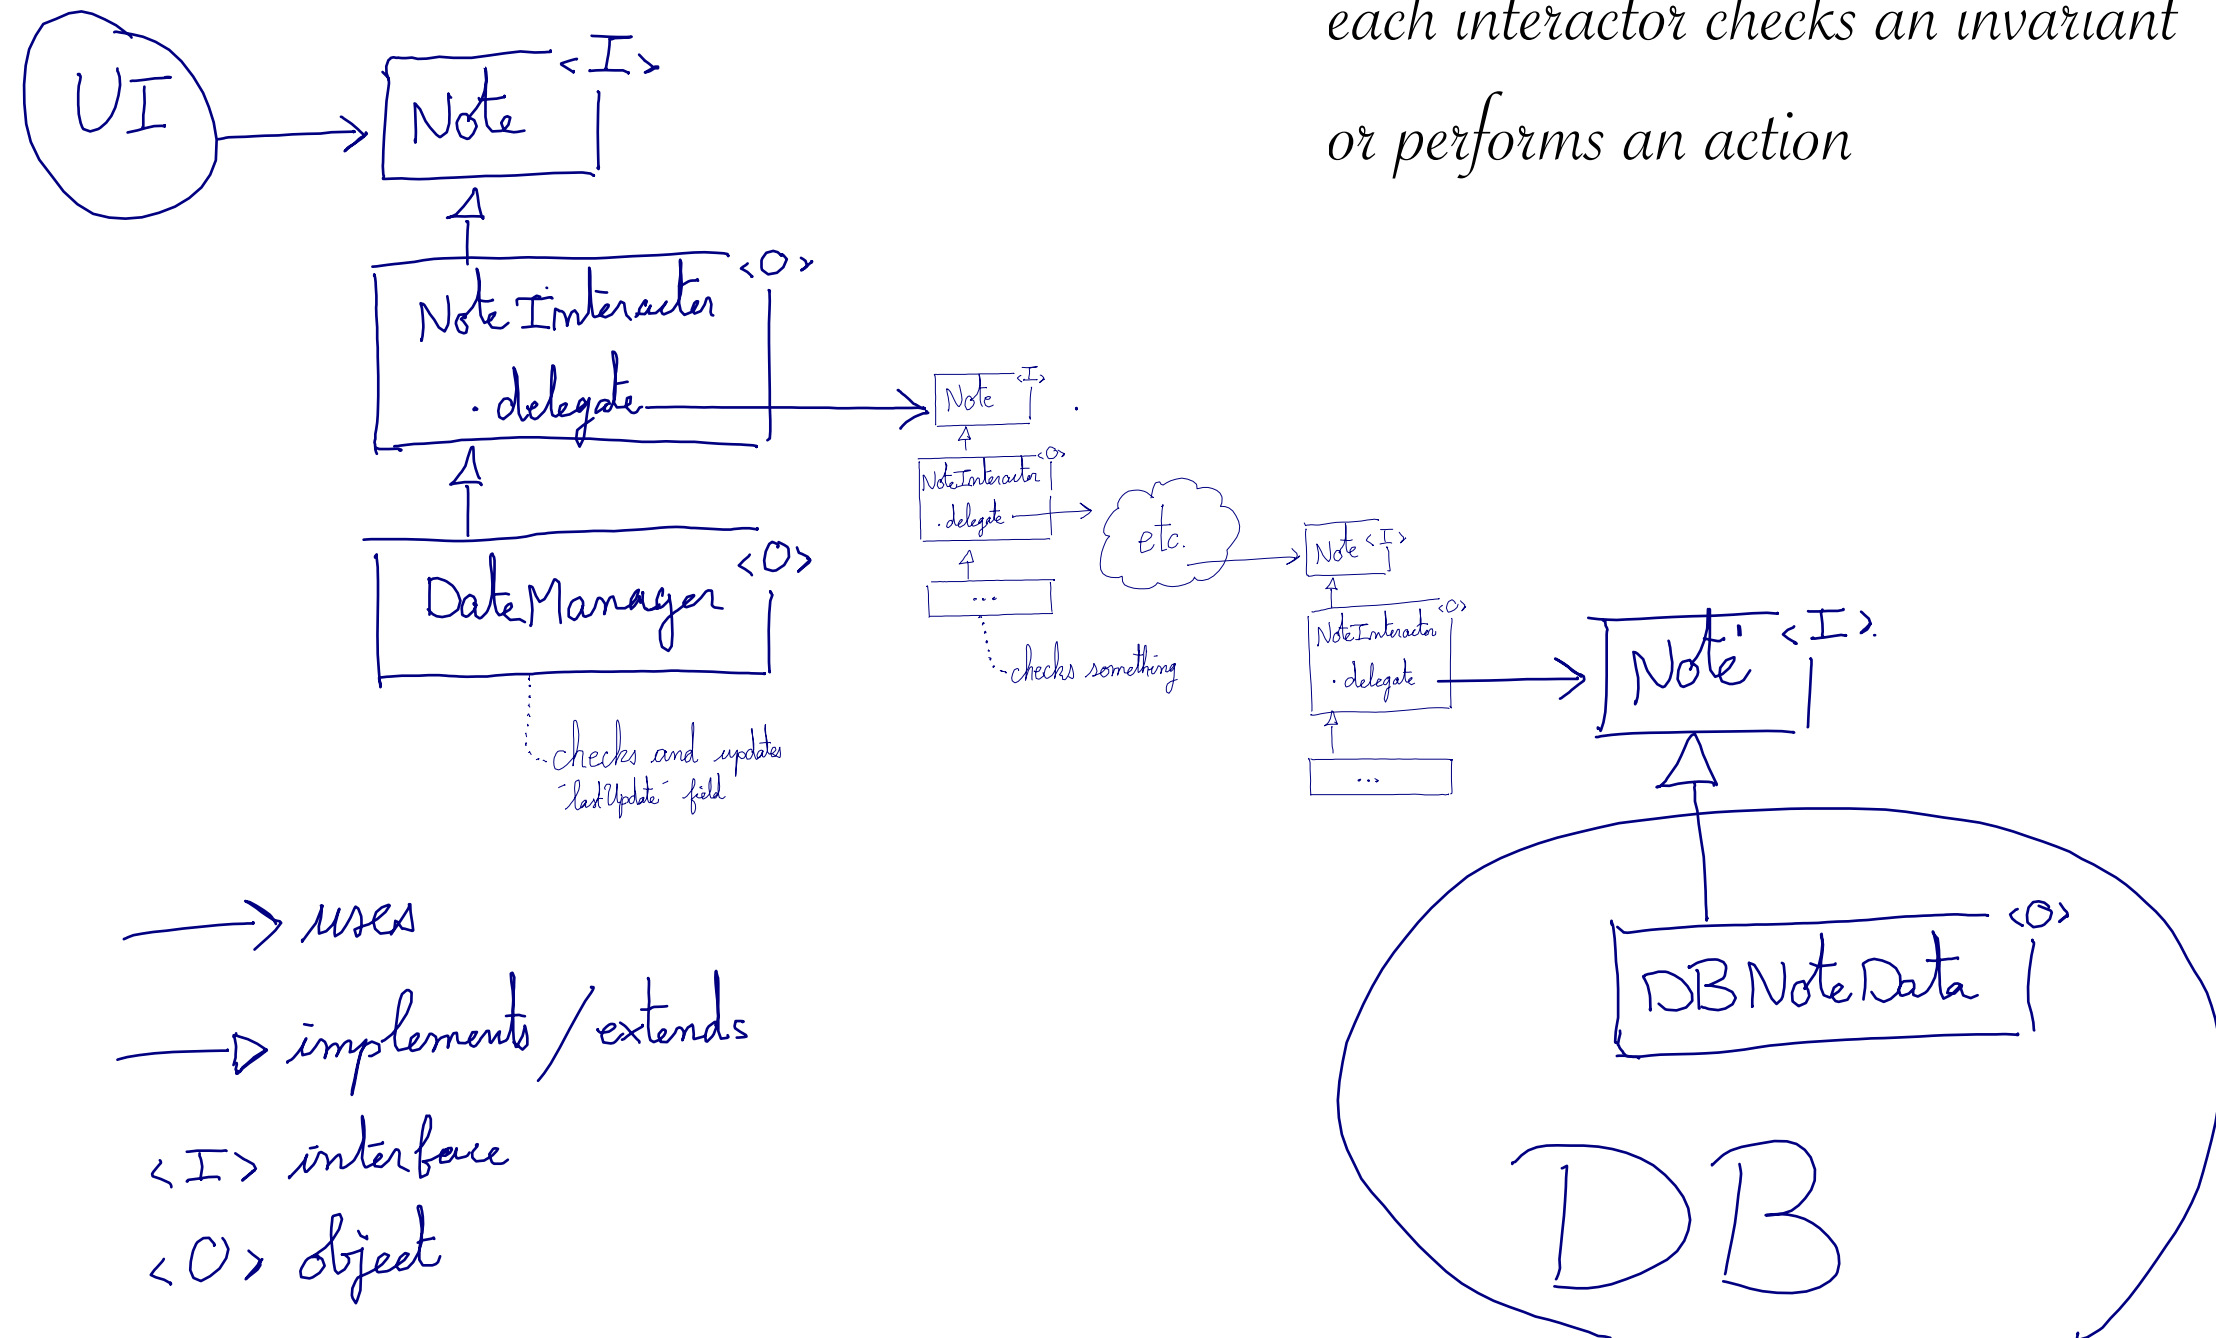

Note Interactors

linked list of interactors

each interactor checks an invariant
or performs an action

impl. IcyNoteCore

*- stacks interactors on top of
the notes provided by the storage*

- validates storage output

```
@Override  
public Optional<Note> getNote(int id) {  
    Optional<Note> storageProvided = storage.getNote(id);  
    return addInteractor(storageProvided);  
}
```
